

REMARKS

In response to the Restriction Requirement of May 30, 2007 in the subject U.S. patent application, applicants, through their undersigned attorney, select Group I, claims 17-28 directed to a folding apparatus, to prosecute in this application. Independent claim 29, which is directed to a spur cylinder, has been amended to depend from claim 17 which recites a folding apparatus including a spur cylinder. Applicants reserve the right to file one or more divisional patent applications directed to the inventions or groups of inventions not selected for prosecution in this application.

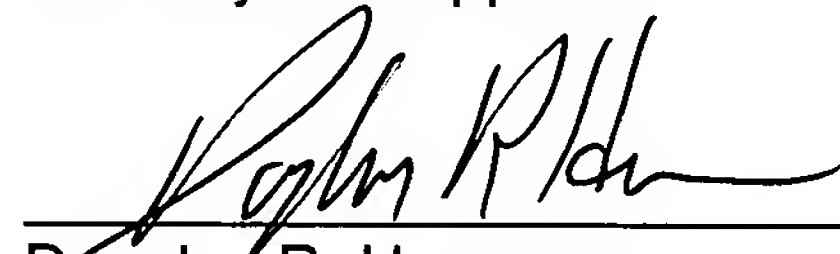

Claims 18 and 28 of the subject application have been amended to clarify the claim language in claim 18 and to correct a typographical error in claim 28. These changes do not change the scope of these claims.

An early and favorable Office Action on the merits is respectfully requested.

Respectfully submitted,
